Full-year Forecast

March 2025 Period

Full-year earnings forecast has been maintained by virtue of following reasons
; Electronics and Medical & Precision Devices are expected to remain strong in 4Q
Mobility is expected to maintain the 3Q performance levels.

	March 2025 period 3Q (results)	March 2025 period (forecast)	Progress	Remarks (Unit: Millions of JPY)
Net sales	33,738	42,000	80.3%	1.Full-Year Financial Results Forecasts Given the 4Q outlook as shown below, we have maintained the full-year earnings forecast announced on May 15, 2024. [4Q outlook] ①Electronics: The positive impact of growing demand for AI-related components is expected to continue. ②Medical & Precision Devices: The positive impact of cost reduction activities are expected to continue. ③Mobility: Performances are to maintain the same level as 3Q, when the negative impact of the external environment was mitigated.
Operating profit	1,482	1,950	76.0%	
Ordinary profit	1,572	1,950	80.6%	
Profit	1,085	1,380	78.6%	
Annual dividend	(March 2024 period) 74JPY Per share	76JPY Per share		
				2.Annual Dividend Forecasts Along with the full-year financial results forecast, the annual dividend of ¥76 per share is also unchanged.

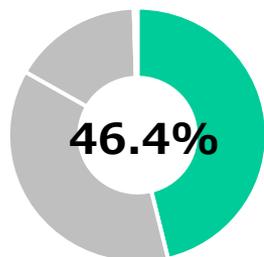

※These consolidated forecasts are based on available data as of the date of this press release and performance may differ materially from these forecasts owing to a variety of factors. In the event that it is deemed necessary to revise the outlook for full-year earnings forecasts, we will make another announcement.

Net sales	13,646	15,727	115%	+2,081
Operating Profit	979	1,239	127%	+260

3Q Summary

- Although the impact of advance costs associated with the launch of the dry film business at the Thailand (Korat) factory continues, orders have recovered as the impact of inventory adjustments of smartphone-related materials has improved.
- In addition, orders for wiring board materials were strong due to the demand expansion for AI-related servers, and orders for dry films from the Vietnam factory and wafer polishing carriers from the Okinawa factory remained strong, resulting in increased sales and profits.

Full-year Forecast

- In the 4Q, the impact of advance costs for the dry film business at the Thailand (Korat) factory will continue, and the outlook for a recovery in semiconductor-related demand other than AI-related demand and smartphone-related demand is unclear. Taking into account strong orders for wiring board materials, dry film at the Vietnam factory, and wafer polishing carriers at the Okinawa factory, however, we have revised its full-year forecast upward from 1,400M ¥ to 1,500M ¥.

Full-year Forecast	<ul style="list-style-type: none"> The order environment in 4Q is expected to remain at the same level as in 3Q, but this will not be enough to cover the profit decline up to 2Q. Therefore, the full-year forecast has been revised downward from 1,400M ¥ to 1,250M ¥. We will continue cost reduction projects, including expansion of fully-automatic and semi-automatic production lines to group companies.
